COMBINATION/KEY LOCATION: _____

It is very important to include the location of any cabin keys/combinations on this form.

To properly check for leaks when a boat is launched it is imperative the launching crew has access to all areas of the boat, including the cabin.

PRIOR TO LAUNCH, PLEASE CONFIRM THAT:

1. All batteries are serviced, connected, and fully charged.
2. All seacocks are closed.
3. All external bilge drain plugs are installed as removed by yard when hauled.

Bilge Drain Plug Locations:

*(Internal bilge drain plug locations need to be disclosed
by owner on launch request form.)*

4. Propeller and rudder sealing glands are serviced and in safe condition (no leaks). Yard may need to make minor adjustments to stop leaks at owners expense.
