Note: Removal and/or lowering of canvas, appendages, antennas, electronics masts etc. is often required in order to minimize the chance of damage occurring while a vessel is protected from the elements by a winter cover. These items not removed by the customer will be removed by GBM at our customary rates. If an owner insists on leaving canvas, appendages, antennas, electronics masts installed, GBM will not assume responsibility if these items are damaged by a winter cover. Winter covers can apply significant loads to rails, stanchions, and other exposed appendages and GBM will take every pre-caution to protect a boat's extremities and minimize the chance for excessive loads and/or damage to a vessel. However, GBM cannot guarantee any boat's ability to withstand the pressure a winter cover can impose on its appendages and, therefore, will not be held liable for resulting damage.

Other Winter Work (Describe)

OWNER'S SIGNATURE _____ **DATE** _____ I have read and accept the General Marina Rules and Conditions. Bills will be processed at the completion of the Job or monthly, whichever comes first. A service charge will be applied to balances 30 days past due.
